Critical Observation

Languages

English (Fluent)

Vietnamese (Fluent)

Japanese (Conversant)

Education

Coding Dojo

University of California,

Santa Cruz

B.A. History

Hanoi University

(Study Abroad)

Projects

Write Now

A gamified social media site for aspiring writers to post articles, comments and likes.

- Role: Integrated the gamified aspect. Built the back-end database and queries that underlie the front-end display.
- Tech: Ruby | Rails | SQLite | HTML | CSS

Finder

Social dining application that allows users to adventurously search for random, "Hole-in-the-wall," restaurants.

- Role: Designed the front-end using Materialize and CSS. Managed a team of 4 to work efficiently and completed the 12 hour Hackathon.
- Tech: Python | Django | Yelp API | SQLite | HTML | CSS | AWS

Guilty Pleasures

E-Commerce site specializing in movies, music and snacks that are considered guilty pleasures.

- Role: Developed the front-end using Materialize and CSS. Worked closely with jQuery for pagination and drop down options on the navigation bar.
- Tech: Python | Django | SQLite | HTML | CSS

Career Experience

Coding Dojo

Engineer in Residence | 2016

- Accomplished a 3-month training program, learning 3 programming stacks, Python, MEAN and Ruby.
- Elected as Project Manager and successfully earned 1st place in a 12 hour Hackathon, hosted by Mobile Majority, with a team of 4 individuals.

Paymaster

Entertainment Partners | 2015 – 2016

- Managed 50+ TV and films' production payroll.
- Tested and assisted in the development of the new UX casting software for Central Casting and trained employees for smooth transitions.

Assistant Language Teacher

Interac | 2014 – 2015

- Served as the primary English teacher and translator for more than 900+ students and 200+ teachers for local Junior High and Elementary Schools in Japan.
